HINDU AND MOSLEM FANATICS RIOT IN INDIA

EUROPEAN AREA OF CALCUTTA IS IN A PANIC

**SITUATION DECLARED GRAVE.
INTERMITTENT RIOTING
FOR 24 HOURS**

**REPORTS PUT DEATH LIST AT 10,
AND 30 ARE SAID TO BE
WOUNDED**

By BERNARD BEILBY
(United Press Staff Correspondent)

Calcutta, India, April 3. — The European quarter of the city is in panic today, following 24 hours of intermittent rioting between Hindu and Moslem fanatics. The situation is grave.

Reports put the death list today at 10 killed and 30 wounded. It previously had been estimated that today's rioting had cost more lives than that.

The native leaders have lost control of their followers and a British regiment is patrolling the affected areas in armored cars. Considerable looting and incendiarism already have occurred.

Calcutta, India, April 3. — Mobs looted and burned shops today as the Hindu-Moslem riots of yesterday were resumed. Troops are patrolling the streets and machine guns have been placed at strategic points in an effort to control the fanatically religious Indians.

It is believed that today's casualties exceed those of yesterday, when it was estimated that 20 persons were killed and 150 wounded. One hospital alone contains 85 of yesterday's casualties, 10 of whom are likely to die.

The wounded include the English Deputy Police Commissioner Bartley, Sergeant H. Davies of the European police, and an English professor of Calcutta University.

Early this morning a band of and desecrated an idol. The Hindus retaliated by firing a large mosque. The riots spread to the Howrah Hill area. Around St. Colouth college and the Meehwa Bazaar ambulances were busy picking up injured rioters.

The current riot began in the northern part of the city yesterday. In previous clashes between the religious sects the rioters have battled for hours before the police, or weariness, compelled them to stop. Thousands of persons have engaged in previous riots of this kind, one of which was immortalized in a short story by Kipling.

Moslems usually jeer Hindus on the latter's feast days and the Hindus reply in kind during Moslem feasts. From taunts the trouble easily progresses to blows.

4 ALLEGED BANK BANDITS IN COURT AT ANOKA TODAY

Anoka, Minn., April 3.—(UP)—Four alleged bank bandits were brought into court here late today to plead.

They are accused of robbing the First National Bank of Anoka last December. All were arrested in Louisiana and brought here to stand trial.

Until today authorities did not reveal that there were more than three of the alleged bandits under arrest. Ernest Eaton, the fourth, had been held incognito, because he is wanted in other states. His companions are Tom Colcord, Fred Salmay and John Anderson.

County Attorney Will A. Blanchard was prepared to press the case should the men plead not guilty. Attorneys for the defendants had not put in an appearance this morning.

Judge A. E. Giddings, who will hear the pleas, was occupied on other cases today and the alleged bank robbers were not expected to appear until after 2 p. m. It was doubtful, the clerk of courts said, whether the case of Frederick Hanson of Minneapolis would be reached today. He is defending a charge of possession and transportation of liquor.

I. C. C. ANNOUNCEMENTS ON PENDING CASES

Washington, April 3. — (UP) — The interstate commerce commission today set May 19 at Washington for arguments in the rates structure investigation in the western district recently concluded.

The commission also announced the resumption of its investigation into the Chicago, Milwaukee & St. Paul railroad at New York City on April 7.

ROYAL PATIENTS, PRINCE OF WALES, KING'S SISTER, BETTER

London, April 3.—(UP)—The Prince of Wales was able to sit up in York House for the first time today, since he submitted to an operation last Sunday to relieve an anal abscess.

The prince is considering going to a quiet English seaside resort to complete his convalescence.

Princess Victoria, King George's sister, who is the other royal patient, still is menaced by heart strain caused by influenza pneumonia, but the pneumonia itself is decreasing in intensity. It was announced at Marlborough House.

ENDS 10 YEAR SEARCH FOR SISTER

Alliance, Neb., April 3.—(UP)—Irene Metcalf, Minneapolis, Minn., ended a 10 year search for her sister, Stella Metcalf, 15, here last night, when Stella was found living in a covered wagon camp.

When four years old, Stella was taken by her father to Montana, where he planned to start life anew. The father was killed at Lewiston, Mont., in 1916.

Since then Stella has been living with an itinerant band, while her sister searched for her.

MIDDLE WEST FURTHER SNOW BOUND TODAY

**CONTINUED PRECIPITATION AND
STRONG WINDS ARE
PREVALENT**

**SNOW IS BLOWN INTO GREAT
DRIFTS IN CITIES AND
COUNTRY**

Chicago, April 3.—(UP)—The middle west was further snow bound today with continued precipitation and strong winds that blew the snow into great drifts in the cities as well as in the rural sections.

Traffic conditions in many cities were reported extremely bad and motor lines operating between cities were forced to abandon service entirely in some sections. Railroad schedules continued irregular, but no serious delays or accidents were reported. Lines of communication in the harder hit areas were almost completely destroyed.

The Chicago weather bureau today predicted overcast skies and subnormal temperatures for the annual Easter promenade.

GOV. DAVIS JURY STILL PONDERING

Topeka, Kan., April 3.—(UP)—Jurors deliberating the verdict pending in the trial of former Governor Jonathan M. Davis and his son, Russell G. Davis, charged with conspiring to sell a pardon to Fred Pollman, ex-convict, were still balloting this afternoon.

The jury has been out since 3:45 p. m. Friday, recessing last night at 1 p. m. to resume early today.

The case was placed in the jurors' hands yesterday following a day of oratory by opposing counsel and instructions of District Judge Otis Hungate.

Former Governor Davis, his friends and family were among the first to arrive in the court room today, anticipating some verdict announcement before nightfall.

CARROLL 'WINE BATH' PARTY IS INVESTIGATED

New York, April 3.—(UP)—Investigation of the Earl Carroll "wine bath" party will not end with the indictment of Carroll on a charge of perjury, it was said at the federal building today. The government is still interested as to the contents of the tub, which Miss Joyce Hawley is supposed to have spent a part of February 23, in the early hours, and efforts will be made to learn the source of the liquor served at the party.

Broadway, always ready to gamble on anything, has placed the odds at 2 to 1 that Carroll will be acquitted.

ONLY 3 LEFT IN THE LAST MAN'S CLUB

**BAND OF GALLANT CIVIL WAR
VETERANS IS SHRINK-
ING**

**TRIO OF TOTTERING MEN TOTAL
MEMBERSHIP OF STILL-
WATER CLUB**

Stillwater, Minn., April 3.—(UP)—Only three are left of the last man's club.

With the death of Emil Graff at St. Cloud, Fla., the band of gallant civil war veterans who formed, perhaps, the most lonesome club in the world, has dwindled to a trio of tottering old men.

John S. Goff of St. Paul, Charles Lockwood of Chamberlain, S. D., and Peter Hall of Atwater, Minn., are the last survivors of the 34 who formed the club here nearly 42 years ago.

One more black draped chair will be placed at the banquet table here July 21, when the three survivors will gather for their annual meeting. Mourning will be placed for other members of the famous First Minnesota, which answered the call of President Lincoln for volunteers.

From the vault of the First National bank will be taken the famous old bottle of rare Burgundy, placed there in 1886. It is being kept to serve as a toast of the last survivor to his comrades.

Former meetings were held in the old Sawyer House, one of the earliest hostilities in the state. Four years ago it was torn down. Last year the veterans met and banqueted in the directors' room of the bank. This year's meeting will be in the same place.

GOLD DISCOVERY CLAIMED IN PIPESTONE COUNTY

St. Paul, April 3.—(UP)—Another report of gold deposits in Minnesota came today from Pipestone county where two farmers said they found gold on their land.

A. E. Rydell, former Pipestone county commissioner, while digging out an obstructed ditch on his farm found a number of peculiarly shaped gold colored pebbles ranging in size from a pea to a walnut. He took them to Sioux Falls for analysis and was told they contained from 40 to 50 per cent gold.

Since the news leaked out Rydell and his neighbors have received many offers for their properties. Rydell asked mining experts what to do and is awaiting advice.

INSTANTLY KILLED AT FORD PLANT

St. Paul, April 3.—(UP)—Joseph Ryan, mechanic at the Ford plant, was instantly killed today when a piece of metal was blown from an air compressor and struck him in the head. The metal was hurled by 70 pounds air pressure.

"HATED BY ALL, LOVED BY NONE"

**U. S. COMMISSIONER RICHARD M.
LESTER COMMITS
SUICIDE**

Savannah, Ga., April 3.—(UP)—United States Commissioner Richard M. Lester committed suicide in his office here by hanging himself from a transom over a door. His body was found early today by a janitor.

Lester left a note saying: "I am hated by everyone and loved by none."

PRIZES AWARDED AT FARM SCHOOL

St. Paul, April 3.—(UP)—Because they made better bread, wrote better essays or turned out better halters than nearly 800 other Minnesota boys and girls, a dozen junior farmers were on their way home today with prizes.

Awards and honorable mention for work in various events of the past week at University Farm marked the formal closing of the 16th Annual Boys' and Girls' short course.

FIRST LAKE TRIP OF SEASON DETROIT-CLEVELAND

Detroit, Mich., April 3.—(UP)—In weather reminiscent of mid-winter 145 passengers left here today aboard the snow lashed City of Detroit III for the first lake trip of the season to Cleveland. One hundred and fifty automobiles were in the hold.

3.75 PER CENT MALT TONIC IS NO BEVERAGE

**MILWAUKEEANS GET THEIR 1ST
TASTE OF THE
TONIC**

**U. P. REPRESENTATIVE LETS A
LOT OF PEOPLE
SAMPLE IT**

By J. E. HELPFERT
(United Press Staff Correspondent)

Milwaukee, Wis., April 3.—Milwaukeeans have had their first taste of the new 3.75 per cent malt tonic and it is almost unanimously agreed, according to a survey by the United Press, that it is a good tonic, but never will be used as a beverage.

Physicians, head nurses of hospitals, convalescing patients, former saloon keepers, ministers, druggists and numerous other persons all were given a good sized glass by a United Press representative, and not one gave any hopes of it being used for beverage purposes. Wholesale druggists received 630 cases of the tonic Friday and although they did not believe they would be able to dispose of it to retailers before today, managed to work overtime in view of the many orders and made deliveries late yesterday. Wherever the tonic was placed on sale there was a big demand for it. Cases were opened in a hurry and bottles displayed in every convenient place. The public started a buying stampede and most of the supply was gone within a short time.

The McDonald Company, one of the first retail stores in the city to receive its supply, sold six cases of the 25 cases received within 45 minutes. Officials of the company declared they did not believe the supply would last 24 hours. This big sale was reported despite the fact that no advertising had been done, as there had been no guarantee that the tonic would be delivered until the truck drove up to the door.

Dr. H. C. Russell, prominent physician here and formerly a druggist, took a drink of the tonic and remarked it was very similar to that which he sold in his drug store 25 years ago.

Dr. J. T. Howard, another prominent physician here, also was given a drink and declared: "The nutritive value is exceptionally high and it is a good tonic from that standpoint."

Asked whether he would prescribe the tonic for his convalescing patients, he said: "I certainly will. It will be a fine thing for nursing mothers who are under-nourished, convalescents and cathetics. The sugar taste in the tonic is very noticeable and if taken in large quantities would certainly cause nausea. A lot of people are going to get sick trying to drink too much of it. I believe the tonic will certainly never be used as a beverage, due to its high quantity of sugar solids."

"Mighty good medicine," declared John Morgenroth, former saloonkeeper and prominent sportsman here, as he drained a small glass and then puckered up as though he had eaten a green persimmon. "It's foolish to even think the tonic can be used as a beverage. It is a fine tonic, at least it should be, but it does not even resemble the old beer."

Dr. J. F. Mueller of the Deaconess hospital here joined with others after sampling the tonic, saying it will be an excellent appetizer and should be a wonderful aid for convalescing persons. "A wine glass, however," he said, "will be sufficient for anyone, I believe."

"Its bitter taste makes it very good as an appetizer," said Sister Bernabett, in charge of the Marquette University hospital, in commenting on the tonic, after having taken a sample. "Because of its bitter taste I think it will be beneficial to a stomach that might reject other foods, if taken cold. From its

TWO BILLION BAKING MERGER IS DISSOLVED

**WARD FOOD PRODUCTS CORPOR-
ATION CHARGED WITH ANTI-
TRUST VIOLATION**

**CORPORATION CONSENTS TO THE
DECREE OF DISSOLUTION
FILED**

Washington, April 3.—(UP)—The Ward Food Products corporation, a \$2,000,000,000 baking concern, which the United States charged had organized in violation of anti-trust laws, today filed a consent decree to the unit, dissolving the entire corporation.

Attorney General Sargent announced the decree filed in the United States district court at Baltimore provides for the complete separation of the Ward Baking Corporation, the General Baking Corporation and the Continental Baking Corporation.

The food products corporation pledged itself to dissolve within 30 days, forfeit all its corporate privileges and surrender its charter to the state of Maryland.

Pending final dissolution, the corporation is enjoined from issuing any capital stock, acquiring property or transacting any business other than necessary to terminate its existence.

Under the decree the most sweeping of its kind ever entered in an anti-trust case, the General Baking corporation promised to reduce its authorized capital stock by cutting its class "A" non-voting stock from 5,000 to 2,000 shares.

Counsel for William B. Ward, organizer of the huge combine, certified to the court that Ward had completely liquidated his holdings of 1,000,000 shares of stock in the General Baking corporation, to widen control of the General Baking corporation, the number of its directors was increased from three to seven.

GERALD CHAPMAN IS REFUSED A NEW TRIAL

Hartford, Conn., April 3.—(UP)—Attorneys for Gerald Chapman were today refused a hearing on their motion for a new trial.

After a conference between Judges Newell Jennings and Waldo Marvin, which State's Attorney Hugh M. Alcorn and Assistant United States Attorney General Aza attended, it was decided that the new evidence presented did not warrant waiving the legal formalities and allowing the motion of the defense to be heard at once.

Judge Jennings explained that the judges had reached the decision not to act upon it as it was not technically before them as it could not be returned until the first Tuesday in May. He said he would call on Judge Trumbull tonight and inform him there was no occasion for him to grant a fourth reprieve for the bandit.

This will mean, it was said, that Chapman must hang Tuesday, unless his attorneys can obtain an injunction in some federal court staying the execution.

AMERICAN METAL COMPANY SECURITIES TO BE INVESTIGATED

New York, April 3.—(UP)—Investigation of the American Metal Company securities transfer will continue, United States Attorney Buckner said today following the indictment of John T. King, Connecticut republican leader, on a charge of perjury his 1921 income tax returns. In reply to a statement by King's attorneys that the government had not lost a cent and that every penny which it is alleged the government might have lost was paid by King when his attention was called to the matter, Buckner said that King had not paid up until four or five years after the money was due and then only after he had been confronted with a summons.

taste I would say it contained some iron."

The tonic is that which the government recently gave the Pabst Brewing Company of this city and the Anheuser-Busch Brewing Company of St. Louis permission to manufacture and distribute.

HOUGHTON RETURNS TO GREAT BRITAIN AS U. S. AMBASSADOR

**AMERICAN AMBASSADOR TO RE-
SUME HIS WORK
THERE**

**REFUSES TO DISCUSS HIS TALKS
WITH THE PRESIDENT ON
EUROPEAN AFFAIRS**

New York, April 3.—(UP)—Alonso B. Houghton, United States ambassador to Great Britain, sailed today to resume his work there. Before sailing he declined to discuss any of the conversations he has had with President Coolidge on European affairs.

Sir Robert Horne, Canadian chancellor of the exchequer in England, sailed at the same time with assurance that there was no intention on the part of Britain to seek a cancellation of her debt to the United States.

Samuel Vauclair spoke enthusiastically about business conditions as he sailed for Russia where he expected to sell locomotives of the most modern type to the Soviet government.

CLEAR UP POINTS IN ROBBERY OF THE BAHAMAS TREASURY

Montreal, April 3.—(UP)—Advices to the local offices of the Royal Bank of Canada clear up various aspects in the recent robbery of the Bahamas treasury at Nassau.

These advices show that the loot of \$47,000 in silver was taken from the treasury by bandits, who escaped in speedboats. The Royal Bank then received in custody such funds as the robbers did not obtain.

ATTEMPT TO FORCE PUBLICITY ON WOODLOCK VOTE

Washington, April 3.—(UP)—Attempts to force publication of senate executive votes as the outgrowth of insidious rumors about the confirmation of Thomas Woodlock, as member of the I. C. C., were side-tracked temporarily in the senate today. By a vote of 47 to 27 the senate referred all proposals to change the rules to the rules committee with instructions that decision should be reached within seven days.

I. C. C. SUSPENDS RATES ON MILK CREAM IN WEST

Washington, April 3.—(UP)—The I. C. C. today suspended until August 3, passenger train rates in milk and cream in Iowa, Michigan, Minnesota, Montana, North and South Dakota and Wisconsin.

The proposed schedules would have resulted in 20 per cent increases in these states starting Monday on the Great Northern, the Northern Pacific and the Soo Line.

5 EXPLODED, 5 OTHERS WERE MERE DUDS

**SO FAR AS CAN BE LEARNED
THERE WERE NO
CASUALTIES**

**OBJECT OF ATTACK WAS THE
SINGLE TRACK RAILWAY
IN THE CITY**

By RANDALL GOULD
(United Press Staff Correspondent)

Peking, April 3.—Chinese aviators bombed Peking today.

Ten bombs were dropped during two raids by Chang Tso Lin's fliers. Five of the bombs exploded, but the others were duds.

So far as can be learned there were no casualties, the missiles landing within the city walls near the winter palace and the Temple of Heaven.

It is reliably reported that the diplomatic corps does not consider itself to possess power to compel discontinuance of the raids, but merely to insist upon the inviolability of the legation quarter.

The planes circled above the city, endeavoring to place a bomb that would destroy the single track railway that connects Peking with Kalgan to which city some of the defending nationalist troops are being evacuated. One of the bombs came close to the Tsing Hua and Yen Ching universities, but did not damage them. The planes passed directly over the United Press office.

Negotiations for the control of Peking have continued for a fortnight with the coalition army of Chang, Wu Pei Fu and Li Ching Ling drawn up about 16 miles from the city, but quite close to the defending circle of nationalist troops. Marshal Feng Yuh Siang, the Baptist militarist, who commanded the nationalist troops, left Peking before the coalition army approached. He is believed to be enroute to Moscow.

MORE THAN 150,000 TREES TO BE PLANTED IN STATE THIS YEAR

St. Paul, April 3.—(UP)—More than 150,000 trees will be planted in Minnesota during 1926, the Minnesota Tree society announced today.

School children, boys and girl scouts, camp fire girls, members of the American Legion, club women and members of civic organizations throughout the state will participate in American Forest Week, April 19 to 24 inclusive. Preparations for observance of the week are well underway.

Mrs. Willard Bayliss, state president of the Federation of Women's Clubs, said club women of the state would set out "more than 100,000 trees." The state forestry department will distribute about 20,000 trees to schools as soon as weather conditions permit.

Clarence B. Winter, executive vice president of the Minnesota Tree society, and state chairman of the Minnesota Forest Week committee, today completed organization of a "committee of 50" to aid in arranging statewide observance of Forest Week.

ALLEGED LOVER OF GRANDMOTHER SENTENCED TO DIE

Chicago, April 3.—(UP)—John Walton Winn, alleged lover of Grandma Nusbaum, today was sentenced to die, April 23, for his part in the brutal murder of Grandpa Nusbaum.

Grandma was given a life sentence and 90 days allowed in which to file a bill of exceptions.

Edward Goff, one of three witnesses who testified for the state, after they had been indicted for the murder, was given 25 years in Joliet. Mrs. Dellah Martin and Martin Stringham, the other two state witnesses, were sentenced to serve 14 years.

Dr. Strader of the Deerwood sanatorium was in the city this morning. When he returned to Deerwood, he took with him a fruit and jelly donation made by friends in this city, collected through the social welfare committee of the Musical club. The collection consisted of about three dozen glasses of jelly, and a number of jars of fruit.

POST-LENTEN BALL

Minneapolis Orchestra to Play at Gardner Hall Tonight, Dancing Starts at 9 P. M.

Bob Sullivan and his Five Westonsians arrived in the city this afternoon for their post-Lenten ball at Gardner hall tonight. The musicians are from Minneapolis, a snappy sextet of players who have spent the last few weeks getting ready for this and other dances of the post-Lenten season. They have all the latest hits ready to tickle the fancies of the Brainerd dance-lovers.

The members of the orchestra are Bob Sullivan, violin, Julian Cohen, piano, August Toehler, trumpet, Karyl Hoffer, banjo, Roger Gale, saxophone, and Ben F. Nelson, drums. They are students at Minneapolis, and have made a fine reputation for their dance-playing.

Dancing will start at 9 p. m.

Tom Davis Is a
Candidate for Governor

St. Paul, April 3.—(UP)—Tom Davis, Minneapolis attorney, today formally announced his candidacy for the farmer-labor nomination for governor. He will oppose Magnus Johnson, former United States senator, at the state primary election June 21.

Davis issued a statement expressing his faith in the success of the farmer-labor movement.

LEAGUE WOMEN VOTERS' MEETING

Taxes is Topic to be Discussed Tuesday Afternoon,
April 6

AT CHAMBER OF COMMERCE

10 Questions to be Answered by 10 Live-Wire Women

Since March weather is promised for the whole first week of April, it will not be inappropriate to hold the March meeting of the League of Women Voters that week. This meeting, postponed from March 30, will be held on Tuesday afternoon, April 6th at 3:15 o'clock at the Chamber of Commerce. Every woman in Brainerd who is interested in knowing how her taxes are spent is invited to attend this meeting.

There will be ten questions answered by ten live-wire women. Most of these questions relate to the financing of city government—a few concern its administration. Our city treasurer, Richard Isle, will also explain the distribution of taxes into the different funds required by the various city departments and the restrictions with which these funds are safeguarded.

A splendid article on taxation, giving very briefly the basis of this right, its use and abuse, together with some mistaken notions concerning the latter point, will be capably reviewed. This article is one of the series on current questions in government, published by the Minnesota League of Women Voters.

ARAB SEES BEAUTY IN DESERT WASTES

Luxury World Offers Has No Attraction for Him.

The traveler in Arabia is impressed first with the desolation of the landscape, says Paul W. Harrison in "The Arab at Home." The desert, which is the real home of the Arab, includes practically the whole of the peninsula except the two southern corners and the western edge, where low mountain ranges take its place. It is for the most part a plateau rising to a height of some 125 feet above the sea and more than that in its western part. It is not a uniform expanse of sand, as popular imagination pictures it. By far the greater part is rocky, and there is a certain amount of good arable soil. The feature that distinguishes the desert and gives it its particular characteristics is its aridity. During the winter and spring there may be as much as three to six inches of rainfall. For the remainder of the year there is none.

The rocky plains stretch from horizon to horizon. Sometimes the landscape is dead flat; sometimes rolling, as in our western prairies in the vicinity of a great river. For some hours the traveler from the Haza oasis near the Persian gulf coast to Riyadh in inland Arabia passes over a great rocky plain which is quite black. From a distance the imagination pictures it as an immense asphalt roof covering some inferno of heat underneath, but once reached it is found so solid that it seems rather as if the very framework of the earth has been upheaved to view. The crevices and irregularities are filled with yellow sand which at times almost obliterates the black foundation underneath.

Certain parts of the desert are vast expanses of sand, quite according to the popular imagination. It is a yellowish, cream-colored sand, and it drifts into great dunes, fifty feet high or more.

And there are people who live in that desert, not travelers only, but permanent residents. They live there not merely during the spring when there is a little rain, but the year around. How can men live in a country like that? The well is the answer. The little green vegetation to be seen in the spring when the meager rains come soon dries down, and the inexperienced eye of the stranger would scarcely find it. Nevertheless, it is sufficient for goats and camels and perhaps sheep to graze upon if wells can be found in addition where they can be watered every evening. So it happens that the most precious things in Arabia are the wells. Caravan routes may be crooked, but the reason is never far to seek. . . . It is the well that is the essential thing. Wherever water can be secured, there men can live. It is not such a life as would be popular in America, but men live, and women live, and children live there, and love their desert with an unparalleled devotion. Transplanted to a real garden spot of the earth, they weep for a glimpse of their beloved desert.

The love of the desert is a very deep and a very beautiful thing. For political purposes one of these desert chiefs was urged to give up his residence in the open and arid desert and come to live in the town. The greater comfort and luxury to be found in the town were pointed out to him as contrasted with the hardships and loneliness of the desert; but the old chief did not see it that way. "In the town," he said, "I have no doubt that I shall find all the things which you describe, but out here in the desert I have my family and my goats, great distances and God."

HOME, DAD AND THE BOY

By FRANK H. CHELEY

Fifty-Seven Varieties

WITH more than forty million Dads in America, the American Boy's best interests ought to be pretty well looked after.

But in that connection here is a sobering query:

"What sort of a crop of boys would there be if every Dad was a man like me?"

Of Dads there are fifty-seven varieties; good, bad and indifferent—just as there are boys.

Of course, if there were no Dads, there would be no boys, so after all, "a father is an admirable person to be a parent."

Every boy in the land is a magazine of energy which should be exploded upon some worth-while job, and it is Dad's privilege to act as the engineer.

Boys are like corks, some will pop of their own accord, but most of them will need to be drawn out. That's Dad's job.

The real Dad gets hold of his boy by as many handles as possible, and begins the long job of training him to get along without him.

by Edfrid Bingham & Robert Lord
IRVING CUMMINGS Production

The most appalling catastrophe in history. Historically accurate. A picture you'll never forget!

you can count on keeping it
years longer
than other cars

Do away with vibration—cut friction to a fraction—abolish carbon troubles and valve grinding—and you add years to the life of your car.

In the poppet-valve-engined car, it is the pounding of cams against push-rods, the contact of push-rods on rocker-arms, the recoil of valves under engine provides that cause vibration.

In the sleeve-valve-engined Willys-Knight there is no pounding of metal upon metal. The Knight engine is simplicity itself. It consists of but two metal sleeves operating with a gliding motion. No vibration. No friction. Simply two single sleeves working smoothly, silently, up and down, one within the other, in a constant film of oil—and that is all!

Carbon, too, shortens the life of the poppet-valve engine. The only

remedy is valve-grinding. And this assembling-and-tearing-down process weakens the engine every time it is performed.

Carbon troubles cannot exist—there is no valve-grinding—with the sleeve-valve-engined Willys-Knight. The unique principle of this patented engine provides that carbon only serves to seal compression and prevent power-waste. Instead of weakening, it literally gives this car added years of life and usefulness. Instead of harming, as it does all other engines, it actually helps the Knight engine to perform!

The new WILLYS FINANCE PLAN means less money down, lower monthly payments; and the lowest credit-cost in the industry.

Prices from \$1750 to \$2495. We reserve the right to change prices and specifications without notice.

MORE WORKERS AND LESS MIDDLEMEN

ROGER W. BABSON, nationally known statistician and financial authority, was in Florida some weeks ago and he gave them some sage advice which applies to any community that wishes to prosper.

"What Florida needs is more workers and fewer persons who wish to be middlemen and live off the other fellow's labor. After the people of Florida realize that they can't live on the increase in value of real estate alone, this state will become one of the nation's greatest.

"Real estate men ask when property values will show a further rise. I tell them that real estate will increase in value when real estate men put on overalls and start to work, and the real estate busses are used to haul celery and citrus fruits and strawberries, instead of prospects.

"Florida must go to work. The state has the sunshine and the soil. All it lacks is workers."

The statistician blames the "binder boys" for the readjustment of prices, which he regards as certain for the immediate future. "These men, most of them from the north, have been unsuccessful there and it is only reasonable to expect that they will not be successful here. They have never worked and Florida can't change them."

"Rents and prices in general in the state will drop 50 per cent before the increase in population and the solid development of the state justifies another increase. Rentals have been entirely out of proportion and they must readjust themselves. The high cost of living in Florida must be remedied before the state can develop as its natural resources indicate.

"Florida has been very busy in the last few months, but it has been like the two men who kept themselves busy washing each other's clothes. They didn't produce anything."

Mr. Babson illustrated his point by telling the sources of the food served in Tampa hotels:

"The peaches are from Georgia, the flour from Minneapolis, the coffee from Brazil and even the cream comes from far-off Wisconsin. Some of these things, at least, should be from Florida," he said.

In regard to the rich farm lands of the state, Mr. Babson said that work in Florida would produce twice as much as a like amount in the north. "The whole trouble has been that some people in Florida have been trying to delude themselves into believing that they can live in Florida without working."

"Florida has been like an adolescent boy. You couldn't tell her anything. This stage is rapidly passing, and the passing of this stage augurs well for its future."

NAVIGATION ABOVE ST. ANTHONY'S FALLS

THE St. Cloud Daily Journal-Press is publishing an interesting series of articles entitled "Navigation Above St. Anthony's Falls," prepared by Fred A. Hill, secretary, Pioneer Rivermen's Association, and originally published in the Burlington, Iowa, Post.

Eight installments have been published and to date no one seems to have penetrated the Mississippi to Brainerd. Navigation seems to have been effected from St. Paul to St. Cloud, for on one occasion the Enterprise steamboat dug into wheat stored at various points and with the help of her barges brought it out in good sized lots, taking from St. Cloud alone over 20,000 bushels on her first ten trips, in the early sixties. In addition to the early merchandise business, early in May, 1861, we believe, she began on a seven hundred ton contract for the Hudson's Bay Company. On one occasion she made a hurry up round trip to St. Cloud in 29 hours and brought down 1,800 sacks of wheat.

"Baldwin Brown's boat came out and was christened the St. Cloud, and was the sixth boat built above the falls. She made one trip to St. Cloud but got into trouble on the two subsequent trips on Coon rapids and broke some of her machinery on each occasion. She wasn't a success for the swift water on the upper river."

SELLING TOBACCO TO MINORS

THE "Brainerd Boy Life Survey" as taken from the Brainerd public schools, and covering data secured from 603 boys reveals a shocking condition in the column devoted to "Boys Using Tobacco."

The boys who confessed using tobacco should be credited with one redeeming virtue, they admitted using it. There may be a large percentage using tobacco, but refusing to admit it.

The entire tabulation was made public and commented on at the recent Rotary meeting, by Scout Executive Perry Newton. Here are the figures:

10 year old boys using tobacco, 3.5 per cent. 11 year, 12.3 per cent. 12 years, 1.9 per cent. 13 years, 9.3 per cent. 14 years, 8 per cent. 15 years, 7.6 per cent. 16 years, 16 per cent. 17 years, 27 per cent. 18 years, 36 per cent.

There is a law forbidding the sale of cigars to minors and the figures published above indicate that the boys are getting them for their use. The most common use of tobacco by young people is in the form of cigars. Dealers of the city should see that the cigaret law is obeyed.

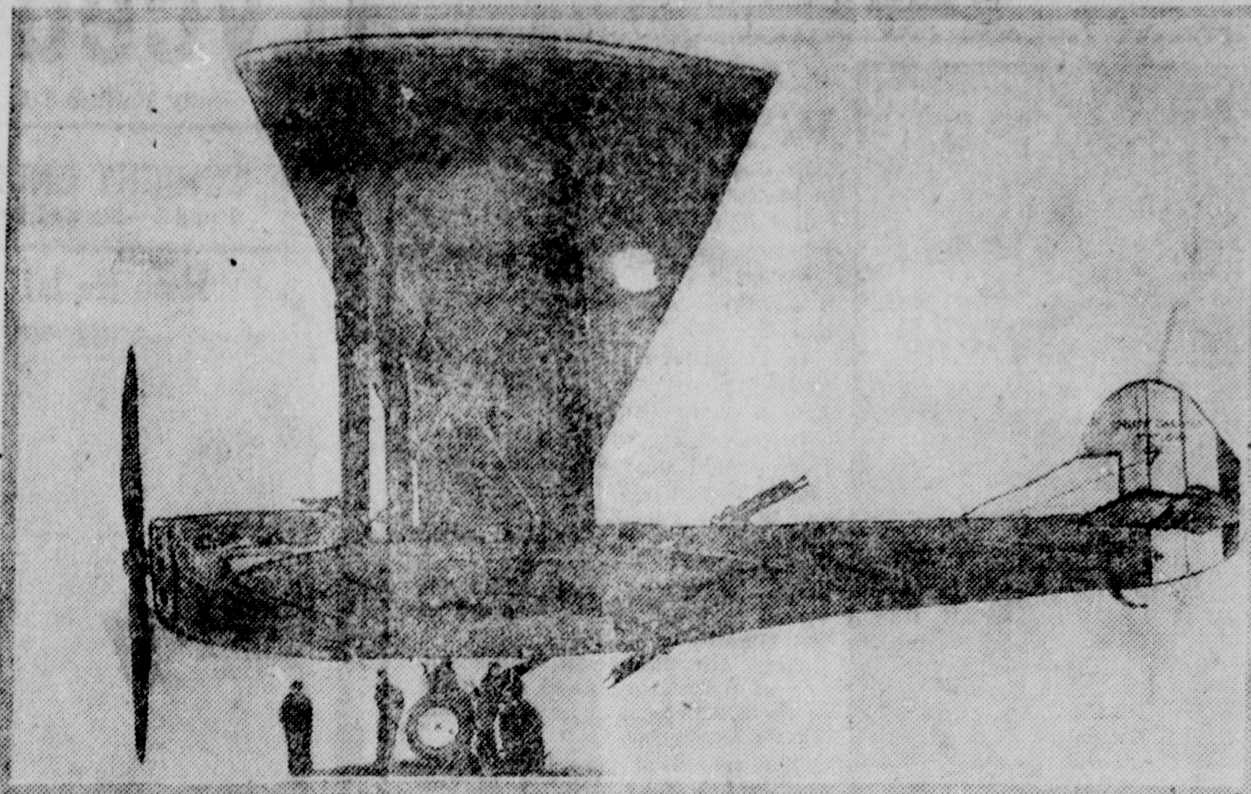

CANADIAN FOX FARMING

IN order to stimulate the growth of the fox farming industry along lines calculated to better ensure the financial and economic future of the industry, the Canadian National Silver Fox Breeders' Association has established a modern ranch at Summerside, where the various problems connected with the industry will be studied.

This experimental ranch is equipped with 70 breeding pens and there still remains adequate space for further expansion. The ranch has been stocked with high-class animals, registered and pedigreed, supplied by breeders in the vicinity of Summerside.

SOME one has suggested that some hunters have been delinquent sending in last year's game killing reports because they didn't shoot anything. Kill or no kill, a report should be made. April 15 is the deadline now.

MYSTERIOUS AERIAL DREADNOUGHT, BEING BUILT FOR U. S. ARMY, TO FLY ACROSS OCEAN TO LONDON AND PARIS

This photograph shows how the giant Huff Daland "Cyclops" will appear when it is finished. The mystery bomber is being built at Bristol, Pa., under secret orders from the U. S. Army Air Service. An 8,000 horse-power motor will turn a 16-foot propeller. The giant plane will weigh 17,000 pounds and have a carrying capacity of 9,000 pounds. At a speed of 130 miles an hour, the "Cyclops" will make a non-stop flight from New York to London and Paris. It is the largest single-engine bomber in the world.

Science and Immortality

By DR. ROY L. SMITH

Immortality is not a religious doctrine. It is a great human interest, in which science and religion have equal interest.

But thus far science has failed to contribute much to the solution of the problem because it lies outside the realm of the scientific method. Science depends upon observed facts

and, as yet, no traveler has ever returned from the grave who gave us the necessary facts upon which to base adequate or accurate judgments.

Science can, science does, make the belief in immortality appear reasonable. Analogies, deductions, inferences and hypotheses are used by science to set up a strong case for the popular belief in immortality. Great scientists have believed in the idea—Louis Pasteur, Sir Isaac Newton, Benjamin Franklin, Copernicus, Galileo, and Sir Oliver Lodge being conspicuous examples.

But science has not always waited for the full quota of facts to set out on new trails. Louis Pasteur, having discovered the microbe origin of many diseases, set out to find a cure for rabies but he could not find the germ that caused the disease. Nevertheless, without knowing the identity of the trouble making germ he produced a cure and the germ has never yet been found.

But the cure works! Science gave Pasteur the clue as to the direction in which to look for a cure. Even without all the facts he found it.

Science can give to faith the clue as to the direction in which to look for evidence in support of the belief in immortality. And faith, looking, has followed on to sublime hopes and profound convictions.

And the belief works. Men, believing that the known life has a determining effect upon the unknown life, turn frivolity into seriousness and carelessness into character.

The doctrine of immortality is worth saving at any cost. It lends dignity, worth, seriousness, purpose, moral weight, eternal value and righteous judgment to human life. Science can do no more!

JUDAS ISCARIOT BURNED IN EFFIGY IN MEXICO CITY

SOMETIMES SUFFERED ADDED INDIGNITY OF BEING BLOWN TO BITS

STRANGE EASTER RITE IS ONE PECULIAR TO MEXICO

By A. W. FOLGER
(United Press Staff Correspondent)

Mexico City, April 3.—Judas Iscariot was burned in effigy throughout the city today and sometimes suffered the added indignity of being blown to bits by the explosion of fire crackers as he burned. The streets were thronged with gay crowds which seemed to have inexhaustible applause for the tortures of Christ's betrayer.

The strange Easter rite is peculiar

to Mexico and its origin is uncertain. Sometimes Judas was only hanged, but fire was the preferred means of expressing contempt and hatred. The effigies ranged in size from a few inches to 12 feet, most of them of cardboard. They were grotesquely adorned with ferocious mustaches and cavernous mouths.

The effigies hung in the streets until the fire reached the concealed fire crackers when Judas' arms and legs went flying.

Children squealed in appreciation of the punishment.

This rite commemorates the Sabado De Gloria, which is the resurrection of Christ. The Mexicans advanced the date one day to shorten the period of mourning.

World's Bee Market

Everyone knows what they ought to pay for a pound of sugar or a packet of cigarettes, but when it comes to buying bees, or bull frogs, or blister pearls, expert knowledge is needed. One of the biggest bee markets in Europe is at Veenendaal, in Holland. Last year 1,586 swarms changed hands, the total number of bees sold being thirty millions, valued at about \$1,500.

DOUGHTY GAYLORD VANQUISHED BY FARGO

**FARGO BEATS
GAYLORD BY
SCORE 28-24**

**VICTORY PLACES FARGO IN
SEMI-FINALS OF NATIONAL
TOURNAMENT**

**LICHTTENEGGER STARTS WITH
5 FIELD GOALS, FARGO
OFFENSE GOOD**

Gaylord, Minnesota entrants in the national basketball tournament at Chicago were eliminated last night by Fargo, when the boys from the prairie state gained a 28 to 24 victory over the Gophers. The game was hard fought from start to finish. Lichttenegger, star forward of the Gaylord team, came through with five field goals and two free throws, but all his efforts merely kept the Minnesotans in the running throughout, and were not enough to win.

The Fargo team stamped itself as a chief contender for the crown by the victory. The team is coached by a former Brainerd man, C. H. Kimball, who coached the Brainerd high school basketball team during 1915-16, and 1916-17. Kimball has had fine success at Fargo, this being the fourth year his team has won the state title, three of the championships coming in successive years.

Jackson and Bristol, forwards, and O'Connor, guard, of the Fargo team, were the big stars. Bristol and O'Connor making 3 goals each, and Jackson 2.

SEMI-FINAL ROUND TODAY

Chicago, April 3.—(UP)—The national interscholastic basketball tournament went into the semi final round today with three teams from the west and one from New England still in the running.

The two teams from the Dakotas, Salem, S. D., and Fargo, N. D., both survived their quarter final rounds in hair raising games.

Pueblo, Col., showed that they have a coach who really knows basketball, when they went out and adopted the only tactics that could have been used to defeat the strong aggregation from Newton, Kas., the favorite of the tourney.

The Kansans boast about the best shooting eyes in the tournament and a shot from anywhere by one of the team is likely to go through the rim. Pueblo went out with the motto "keep the ball away from them." And they did it. The Colorado boys refused to even try to penetrate the Kansas five man defense, merely playing with the ball among themselves in Kansas territory. The Kansas team was equally obdurate and refused to abandon its defense for a man to man style.

Hence the powerful jayhawker scoring machine was held to a mere 11 points. The boys from Pueblo were taking a pot shot from long range once in a while and enough of them went through to bring their total scoring to 13 points.

Fitchburg, Mass., is the eastern team still in the running.

The finals will be played tonight with the winners of the two afternoon games meeting for the championship and the loser playing to decide third and fourth place.

Scores of yesterday's games follow:

Fargo 28, Gaylord, Minn., 24.
Fitchburg, Mass., 22, Nanticoke, Pa., 14.
Pueblo, Col., 13, Newton, Kas., 11.
Salem, S. D., 22, San Antonio, Tex., 15.

SUZANNE LENGLEN REPORTED STRUCK BY 30 LOVE

Cannes, France, April 3.—(UP)—Certainly Suzanne Lenglen is more vivacious than ever.

It may be the balmy Riviera air and consequent improved health, but gossip in these parts points to another possible cause. The ace of women's tennis may at least have answered "yes" to one who sought her hand.

The man in the case, according to persistent reports, is Jacques Brinde Jones Offenbach, grandson of the composer of "Tales of Hoffman." Offenbach is a poet and music critic, a good one, too, but poor.

Suzanne, however, has not as yet chosen to verify the reports. Quite to the contrary, in fact.

"It is the bunk, it makes me laugh," the tennis star commented in choice idiom, when asked by the United Press to confirm the rumors.

Mine "Brakes" Costly

A sprag is a piece of wood which is thrown between the spokes of a wheel on a coal-mining car to bring it to a stop on a grade, acting as a brake, says the Dearborn Independent. Over 3,000,000 feet of timber is required annually for making sprags in Pennsylvania.

**BOBBY CRUIKSHANK
SUCCESSOR NOW TO
MAC DONALD SMITH**

Pinehurst, N. C., April 3.—(UP)—Bobby Cruikshank today sits in the throne of the north and south open golfing championship, as a successor to MacDonald Smith.

Cruikshank was acclaimed the winner of the championship when Tommy Harmon failed to hole a five foot putt on the last green and his score went up to 294 for the four rounds in the tournament here. Cruikshank finished with a 293.

Smith, Harmon and Arthur Yates, Rochester amateur, were tied for second. Joe Kirkwood, Australian trick shot artist, was fifth with a 296.

N. P. BALL TEAM PLANS TAKING A WESTERN TRIP

**MANAGER WHITING LINING UP
TWO STAR PITCHERS FOR
SUMMER**

**TEAM TO BE STRONGEST EVER
PUT IN FIELD BY LOCAL
SHOPS**

The N. P. baseball club may take a trip west this summer, if plans already started come to realization. If this materializes, the Brainerd team will be following in the footsteps of the N. P. Como shops team of St. Paul, which has taken trips to the west coast on various occasions, playing the strongest teams along the Northern Pacific route.

J. P. Anderson, who is treasurer and sponsor of the team, is trying to get the trip arranged. Mr. Anderson has taken a great interest in the local team, and has been the chief exponent of better baseball field and facilities in Brainerd.

Manager Whiting is trying to get two pitchers all lined up for the season. A heavy schedule is being booked and the manager means to have ample material of a high class caliber on hand for the games.

Two games have been added to the schedule since the last writing, and the Albert Lea game has been definitely set for June 20.

SCHAEFER KEEPS UP PHENOMENAL BILLIARD PLAYING

New York, April 3.—(UP)—Young Jake Schaefer continued his phenomenal billiard playing in the ninth and 10th blocks of his 3,600 point match with Willie Hoppe for the world's 18.1 balkline title. He is now leading the former "king of them all" 3,000 to 2,367.

To retain the championship that has been his for more than 20 years, Hoppe now must outscore his challenger more than 2 to 1 in the remaining 600 points of play.

Schaefer's average to date is 34.8-88, while the champion has clicked them off at a 27.18-87 rate per inning.

In track and field meets Miss Kruback has broken two records and equalled a third.

Foolish Things

One of our great inspirational writers says that it is a good thing in the night watches to recall all the foolish things you have said in the course of the day, and resolve to be wiser on the morrow, but a paragrapher wouldn't get any sleep at all that way, and we should think a great inspirational writer himself would soon be looking rather worn, wan and haggard.—Ohio State Journal.

WIGHTMAN CUP TEAM PROSPECTS

By HENRY L. FARRELL
(United Press Sports Editor)

New York, April 3.—With four of the very best players in the United States assured of places on the Wightman Cup team, America's chances to bring the classic cup back home from England are most promising.

The United States Lawn Tennis association recruited the strongest possible team for the invasion in naming Helen Wills, national champion, Elizabeth Ryan, Mary K. Browne and Mrs. Zinderstein Jessup.

It caused some surprise when Mrs. Molla Mallory, former champion and one of the most experienced internationalists, was not appointed as a member of the team but officials of the association explained that she had made other plans for the summer and had asked not to be considered as a candidate.

There were reports that Mrs. Mallory did not want to accept a place beneath that of Miss Ryan, who was named as the No. 2 player but Mrs. Mallory denied this.

"I made arrangements a long while ago to sail early in April for a visit to Norway and Sweden and for this reason I couldn't be sure that I would be able to play in Paris or in London," she said.

The team is to play a special team match in Paris against the French women and then leave for England to play in the Wightman Cup matches and the British national championships at Wimbledon.

The French and British teams have not been named but it is almost certain that Miles, Didi Vlasto and Henrietta Contoslavos will play on the French team. Mlle. Suzanne Lenglen, if she has recovered from her indisposition, may also play against the Americans.

Miss Ryan will be an invaluable member of the American team as she knows every blade of grass on the turf at Wimbledon and she has been playing in France for years. She will be extremely valuable not only as a singles player but in the doubles and it has been the weakness of the American team in doubles that have caused the two recent defeats in the cup matches.

Miss Wills also will be better qualified than she was in 1924 when she was beaten twice at Wimbledon. She has been in Europe for several months and will be in England in plenty of time to get her game adjusted to unfamiliar conditions.

Miss Browne, mixing golf and tennis, didn't do so well at either game during the winter season but she has been taking it easy and intends to leave early and do her serious training on the other side.

WAS NOT DEALT WITH ROUGHLY IN THIS COUNTRY

**BUT ATTACKS ON HIS AMATEUR
STANDING RANKLE IN HIS
SOUL**

**NURMI WILL NOT ATTEND THE
GAMES AT PHILA-
DELPHIA**

By HENRY L. FARRELL
(United Press Staff Correspondent)

New York, April 3.—The love that Paavo Nurmi bears these United States and the carping attitudes of many athletes here is not so tense but what he could survive, if circumstances demanded that he never return to American shores.

When the fleet Nurmi returned last year to his beloved Finland, after shattering just about every running record he chose to break, it was hinted that the speedster felt that if he never came back here it would be too soon.

Not that Nurmi was dealt with roughly. The Flying Finn was well treated and made many friends during his American invasion, but occasionally some public spirited personage with a penchant to publicity would declare that Nurmi's amateur status was not what it should be and these attacks, untrue so far as could be learned, rankled in the soul of the Nordic runner.

Whatever Nurmi's feeling toward America, he will not figure in the big sesquicentennial games at Philadelphia during the summer nor in the other important outdoors track and field meets.

Nurmi has written a friend here that another journey to America would be impossible at this time.

To lovers of track athletes, Nurmi's decision is a disappointment. They would have liked to see him engage Lloyd Hahn, Jimmy Connally and Rose, the new Australian star, in a one mile or 1,500 meter race.

Furthermore, the fans would have liked to compare him in action with Charley Hoff, the Norwegian, who assumed Nurmi's role as record breaker in the meets.

Hoff is a far different type from Nurmi. The Norwegian bristles with friendliness and comradeship, while the Finn was apt to be aloof and perhaps a little taciturn.

Hoff leaves here today for Chicago as the first lap of a transcontinental tour. He will appear at the Drake relay games in Des Moines, April 23 and 24, and his tentative itinerary includes stops at Columbus, Omaha, Kansas City, Iowa City, Seattle, San Francisco and Los Angeles.

WORLD'S HOCKEY SERIES AT MONTREAL

Montreal, April 3.—(UP)—The Cougars of Victoria, B. C., present holders of the world's hockey championship title, will meet the Montreal Maroons tonight in the third game of the "world's hockey series."

The locals have won two games, shutting out the westerners by a score of 3 to 0 in each game. If the Maroons win tonight the Cougars will go back to the coast minus the Stanley Cup, emblematic of the world's championship.

The series next year will be in the west, according to the rules, regardless of the result of the present series.

FEDERAL LIGHT LIGHT CALENDAR AT MINNEAPOLIS

Minneapolis, April 3.—(UP)—Federal judges will face the lightest calendar in recent years when they open the April term of federal court next Tuesday.

There are but 125 criminal cases on the docket, although bench warrants have been issued for defendants in cases left from previous terms of court. Of the new cases 102 are for violation of the prohibition laws. There are 15 narcotic law violations and eight cases involving violations of the postal laws.

TITANIC THEATER COLLAPSED IN MEXICO CITY

Mexico City, April 3.—(UP)—Searchers are combing the ruins of the Titanic Theatre today in an effort to find others who were killed, injured or imprisoned by the collapse of the building last night during a show attended by 1,000 people.

Police estimate that 10 persons died and more than 200, including many children and babies, were injured when a girder supporting the gallery gave way under the weight of a record Good Friday crowd.

POLICE CASE IS SET OVER WEEK

Judge McClenahan Continues Mandamus Hearing Until Next Saturday, 10 A. M.

SEPARATE ANSWERS FILED

Demurrer to Answer of 6 Defendants Entered Claiming Facts do Not Make a Defense

The case of Roy N. Zierke against E. T. Fleener, et al, scheduled to be heard before Judge W. S. McClenahan this morning, was continued to Saturday, April 10, at 10 a. m., when a hearing will be had on a demurrer entered on the behalf of the petitioner by his attorney, Wayne E. Wheeling. D. H. Fullerton, city attorney, represented the city.

This case is a petition for a writ of mandamus ordering the defendants to pay Mr. Zierke for salary as chief of police.

The court room was packed with interested listeners when the case opened. After a few minutes of argument by the attorneys regarding the issues, the judge set next Saturday as the time of hearing on the demurrer, which stated that the answer of the defendants does not state facts sufficient to constitute a defense.

Separate answers were filed by the defendants. One answer was for the mayor, which admits every allegation set forth in the petition, and another, signed by the minority members of the council, Martin Anderson, Verner Anderson, Wm. Lewis and C. G. Holmstrom, also admits all allegations, and makes a few further statements regarding the matter. The third answer is signed by W. J. Lyons, R. H. Paine, Andrew Wesley, Ernest Ritari, C. H. Elvig, and V. E. Quastrom, and denies most of the allegations of the petition. Their answer states at length the history of the case, quoting the council proceedings which bear on the matter.

MRS. M. A. GLASS DIED

Resident of City For 16 Years Passed Away at 10:15 A. M. Today After Long Illness

Mrs. Mariette A. Glass, who has lived in the city for 16 years, passed away this morning at a local hospital, death coming to her at about 10:15 o'clock. Her brother, F. J. Adams, and other members of the family, had been at her bedside until a few minutes before she breathed her last.

Surviving Mrs. Glass are two daughters, Miss Oriana B. Glass, a piano teacher of this city, and Mrs. O. O. Williams, of Pennsylvania, both of whom were here, a son, Frank A. Glass, formerly of this city, and now of Miami, Fla., who arrived this afternoon, and a brother, F. J. Adams, of Omaha, who arrived yesterday.

Mrs. Glass had not been in good health for several years. She was taken to the hospital about a month ago, and her death was expected, as she has been failing rapidly. Her home was at 220 North 7th street.

The funeral will be held on Monday morning, at 10 o'clock, from the home of W. A. M. Johnstone, 597 North 4th street, Rev. N. P. Olmsted officiating. The remains will be shipped to Pennsylvania for burial.

Staff Captain A. E. Chesham, divisional commander for the northern division of the Salvation Army will visit Brainerd, week ending April 4th and will be accompanied by Adjutant Hicks the divisional secretary. Both are well known and loved by all who know them.

Staff Captain Chesham has served in Minneapolis for the past six years and did splendid service. All Salvationists and friends are looking forward to their coming. Captain Bollinger of the local corps extends a welcome to all.

LEGION BENEFIT TICKETS GOING

About Half of 2,500 Tickets Already Sold, Legion And Auxiliary Making Sale

SHOW IS "BEHIND THE FRONT"

Legionnaires Rehearsing For Between-Acts Skit With 5 People, Orchestra to Play

The tickets for the American Legion benefit picture, "Behind the Front," are going fast, with about half of the entire allotment of 2,500 already sold, according to the latest reports. Tickets are in the hands of the members of the Legion and Auxiliary, and are also on sale at the Economy Drug Co., Johnson's Pharmacy, H. P. Dunn Drug store, O'Brien Mercantile Co., and at the Lyceum and New Park theatres.

The picture, "Behind the Front," is a comedy depicting the sunny side of the war, with Wallace Beery and Raymond Hatton, the funniest comedy team on the screen, appearing as doughboy buddies. Mary Brian is the charming Betty whom they both love.

There will be a special children's matinee on the afternoon of the first day, April 14, at 4 p. m. Three regular shows will be given each of the two days, with one matinee and two night performances. The American Legion orchestra will occupy the pit and play at all showings. An American Legion sketch with five people will be presented between shows.

FIRE DEPARTMENT BUSY

Five Calls Turned in Since Noon Friday, Several Result of Grass Fires

The fire department put in a busy twenty-four hours from 1 o'clock Friday to 1 o'clock Saturday, answering five calls during that time. Three of them resulted from grass burning.

The first was at 1:10 Friday, when a run was made to the Neil O'Brien residence at No. 1 Bluff Ave. North, some damage being done to the woodwork in the basement, and considerable smoke damage resulting.

The next was at 2:25 P. M. Friday, back of 910 Fir St., where the department put out a grass and rubbish fire.

Third on the list was a midnight call to 614 E. St. N. E., where the garage of Otto Gardner, containing an automobile was destroyed. This call came in at 12:15 o'clock during the night.

The semi-final was a barn and shed which caught fire from grass burning at 715 No. 5th St., the shed being totally destroyed, and one corner of the barn receiving some damage. The house at this number is vacant.

The last of the quintet was a grass fire which started at the same time as the shed fire, the department turning about to make both runs before returning to the station. This was on the back side hill at 915 North Bluff Ave.

Woman's Courage

In active courage women are inferior to men. In the courage of endurance they are commonly their superiors; but their passive courage is not so much fortitude which bears and defies as resignation which bears and bends.—Lecky.

PYROTOL USED IN LAND CLEARING

The spring season is here and farmers who are planning on opening up some new land are looking around for some cheap explosive. Pyrotol, a government explosive, can be secured this year and should be made use of by farmers. County Agent Roth has ordered a car load and will have several thousand pounds on hand which can be made use of by those who neglected to place orders. This comes to about 3c per stick and is the cheapest explosive the farmers can secure at this time.

This explosive is put up in sticks like dynamite, does not freeze, nor cause a headache, nor any other toxic effects. It will also keep. Anyone desiring this explosive should get in touch with the county agent at Brainerd, soon.

What Comfort these Shoes Give

Certainly. Any shoe that really fits will give heavenly comfort. Trouble is, no one can fit all kinds of feet with a standard type of shoe.

That's why we feature "Arch Fitters," built over special measurement lasts:

a different size for every part of the foot, and a combination of sizes that will prove just right for your foot.

A combination shoe is one with a standard, measurement forepart, and an under standard waist, instep and heel measure,

We have in Arch Fitters all kinds of Combinations

FIREMEN'S BALL IS SOCIAL EVENT

47th Annual Affair of Brainerd Fire Department to be Held on Easter Monday

FLOOR TO BE A-1 SHAPE

Money Raised Will Send Delegates to Annual Convention, Buy Magazines For Department

One of the most important social events of the season will be the 47th annual fireman's ball which will be given Monday night, April 5, at Gardner hall. This ball has come to be regarded as a chief event of the season, an institution since the founding of the Brainerd Fire department.

The mercenary reasons for staging the affair are but indications of the activities and interests of the department, as the money raised from the ball will go to send delegates to the annual firemen's convention, purchase subscriptions to magazines for the department, and other things of such interest.

Inquiries concerning the dance indicate that great interest is being taken in it, and lead to a forecast that this should be one of the best attended dances of the season.

Gardner hall will be decorated appropriately for the ball, and the committee promises to have the floor in an A-1 condition.

GEORGE SOLOMON SEEKS NEW TRIAL

CONVICTED OF ALLEGED FURNACE MURDER OF HIS WIFE

Sioux City, Ia., April 3.—(UP)—Arguments on the motion for a new trial for George Solomon, convicted of the alleged furnace murder of his wife will be heard on April 12.

Solomon was convicted on a second degree murder charge by a jury that deliberated 10 hours.

It was claimed by the state that Solomon thrust the body of his wife into the furnace. The defendant contended that his wife met death when the furnace backfired throwing hot coals over her.

Second degree murder carries a penalty of from eight years to life imprisonment.

FLORENCE GILBERT AND GEORGE O'BRIEN IN "THE JOHNSTOWN FLOOD"

Catastrophe of 1889 Which Stunned

World Reproduced on Screen

The greatest disaster of modern times is depicted in "The Johnstown Flood," the new Fox film which opens at the Lyceum theatre Sunday and will continue Monday. The results which the producing organization has accomplished in capturing the thrilling details in dramatized form are nothing short of amazing. Nothing like it has ever been done

on screen before. It stands absolutely supreme among film-thrillers. In the first place the story has been given the best cast that has yet appeared in a melodramatic production. George O'Brien has the important role of a young engineer who tried to avert the catastrophe by warning the citizens that the dam above Johnstown was weak.

His sweetheart—the daughter of the man who owned the dam—is played by charming Florence Gilbert.

Jackie Coogan Here in "Old Clothes" His Latest

That Coogan boy is here again in his newest screen offering, "Old Clothes." During the youthful star's amazing career he has been associated with practically every type of role that a juvenile actor can portray, but he's never as sweet and lovable or as funny as when he is revealed in the urchin role he made famous in "The Kid."

In his latest opus this tiny genius has ample opportunity to give vent to all of his boyish enthusiasm and pranks and in that natural, unpretentious style which is all his own, he romps home with another success to his credit. This boy is more than a motion picture star—he is a national institution and we regret that Dad Coogan, who supervises all of Jackie's pictures, has established the policy of only two pictures per year for his famous son. "Old Clothes" will be shown at the New Park again tonight and
